Compounding and Crediting

Interest will be compounded on a daily basis and interest will be credited to your account every 3 months and at maturity.

Effect of Closing Your Account

If your account is unfunded or has a balance less than \$500 for more than 20 days, we may deem your account closed.

Minimum Balance Required to Open Account

You must deposit at least \$500 to open this account.

Balance Computation Method

Sterling National Bank uses the daily collected balance method to calculate the interest on your account. This method applies a daily periodic rate to the collected balance in the account each day. For purposes herein, the "collected balance" is the balance of all deposits in your account, not including any items not yet paid or collected.

Accrual of Interest

Sterling National Bank begins to accrue interest no later than the business day we receive credit for the deposit.

Fees

Standard service fees charged by Sterling National Bank are described in your online Sterling National Bank Fee Schedule.

Withdrawal of Interest Prior to Maturity

A withdrawal of interest credited is permitted prior to maturity without penalty. The annual percentage yield assumes interest will remain on deposit until maturity. A withdrawal before maturity will reduce earnings.

Withdrawal From Your Account

Sterling National Bank reserves the right to require not less than 7 days' notice in writing before any withdrawal from an interest bearing account.

Renewal Information

This Certificate of Deposit will renew automatically at maturity. Sterling National Bank will allow a 7 day grace period after the maturity date to deposit or withdraw funds without penalty. If no changes are made to the account, the account will renew to a 11 month certificate of deposit at the standard, non-promotional rate in effect at Sterling National Bank at the time of renewal.

The rate for each renewal term will be determined by Sterling National Bank on or just before the renewal date. You may call us on or shortly before the maturity date and we can tell you what the interest rate will be for the next renewal term. On accounts with terms of longer than one month, Sterling National Bank will remind you in advance of the renewal and tell you when the rate will be known for the renewal period.
